

Part I

**Review of the operation of the Treaty,
taking into account the decisions and the
resolution adopted by the 1995 Review
and Extension Conference**

**Improving the effectiveness of the
strengthened review process for the Treaty**

Part I

Review of the operation of the Treaty, taking into account the decisions and the resolution adopted by the 1995 Review and Extension Conference

Articles I and II and first to third preambular paragraphs

1. The Conference reaffirms that the full and effective implementation of the Treaty and the regime of non-proliferation in all its aspects has a vital role in promoting international peace and security. The Conference reaffirms that every effort should be made to implement the Treaty in all its aspects and to prevent the proliferation of nuclear weapons and other nuclear explosive devices, without hampering the peaceful uses of nuclear energy by States parties to the Treaty. The Conference remains convinced that universal adherence to the Treaty and full compliance of all parties with its provisions are the best way to prevent the spread of nuclear weapons and other nuclear explosive devices.

2. The Conference recalls that the overwhelming majority of States entered into legally binding commitments not to receive, manufacture or otherwise acquire nuclear weapons or other nuclear explosive devices in the context, *inter alia*, of the corresponding legally binding commitments by the nuclear-weapon States to nuclear disarmament in accordance with the Treaty.

3. The Conference notes that the nuclear-weapon States reaffirmed their commitment not to transfer to any recipient whatsoever nuclear weapons or other nuclear explosive devices, or control over such weapons or explosive devices directly, or indirectly, and not in any way to assist, encourage or induce any non-nuclear-weapon State to manufacture or otherwise acquire nuclear weapons or other nuclear explosive devices, or control over such weapons or explosive devices.

4. The Conference notes that the non-nuclear-weapon States parties to the Treaty reaffirmed their commitment not to receive the transfer from any transferor whatsoever of nuclear weapons or other nuclear explosive devices or of control over such weapons or explosive devices directly, or indirectly,

not to manufacture or otherwise acquire nuclear weapons or other nuclear explosive devices, and not to seek or receive any assistance in the manufacture of nuclear weapons or other nuclear explosive devices.

5. The Conference reaffirms that the strict observance of the provisions of the Treaty remains central to achieving the shared objectives of preventing, under any circumstances, the further proliferation of nuclear weapons and preserving the Treaty's vital contribution to peace and security.

6. The Conference expresses its concern with cases of non-compliance of the Treaty by States parties, and calls on those States non-compliant to move promptly to full compliance with their obligations.

7. The Conference welcomes the accessions of Andorra, Angola, Brazil, Chile, Comoros, Djibouti, Oman, the United Arab Emirates and Vanuatu to the Treaty since 1995, bringing the number of States parties to 187, and reaffirms the urgency and importance of achieving the universality of the Treaty.

8. The Conference urges all States not yet party to the Treaty, namely Cuba, India, Israel and Pakistan, to accede to the Treaty as non-nuclear-weapon States, promptly and without condition, particularly those States that operate unsafeguarded nuclear facilities.

9. The Conference deplores the nuclear test explosions carried out by India and then by Pakistan in 1998. The Conference declares that such actions do not in any way confer a nuclear-weapon-State status or any special status whatsoever. The Conference calls upon both States to undertake the measures set out in United Nations Security Council resolution 1172 (1998).

10. The Conference also calls upon all State parties to refrain from any action that may contravene or undermine the objectives of the Treaty as well as of United Nations Security Council resolution 1172 (1998).

11. The Conference notes that the two States concerned have declared moratoriums on further

testing and their willingness to enter into legal commitments not to conduct any further nuclear tests by signing and ratifying the Comprehensive Nuclear-Test-Ban Treaty. The Conference regrets that the signing and ratifying has not yet taken place despite their pledges to do so.

12. The Conference reiterates the call on those States that operate unsafeguarded nuclear facilities and that have not yet acceded to the Treaty on the Non-Proliferation of Nuclear Weapons to reverse clearly and urgently any policies to pursue any nuclear-weapon development or deployment and to refrain from any action which could undermine regional and international peace and security and the efforts of the international community towards nuclear disarmament and the prevention of nuclear weapons proliferation.

**Article III and fourth and fifth
preambular paragraphs, especially in
their relationship to article IV and the
sixth and seventh preambular
paragraphs**

1. The Conference recalls and reaffirms the decision of the 1995 Review and Extension Conference entitled "Principles and objectives for nuclear non-proliferation and disarmament", noting paragraph 1 of the principles and objectives and the elements relevant to article III of the Treaty, in particular paragraphs 9 to 13 and 17 to 19, and to article VII of the Treaty, in particular paragraphs 5 to 7. It also recalls and reaffirms the Resolution on the Middle East adopted by that Conference.

2. The Conference notes that recommendations made at previous Conferences for the future implementation of article III provide a helpful basis for States parties to the Treaty on the Non-Proliferation of Nuclear Weapons and the International Atomic Energy Agency (IAEA) to strengthen the non-proliferation regime and provide assurance of compliance with non-proliferation undertakings.

3. The States parties urge the international community to enhance cooperation in the field of non-proliferation issues and to seek solutions to all concerns or issues related to non-proliferation in accordance with the obligations, procedures and mechanisms established by the relevant international legal instruments.

4. The Conference reaffirms that the Treaty on the Non-Proliferation of Nuclear Weapons is vital in preventing the proliferation of nuclear weapons and in providing significant security benefits. The Conference remains convinced that universal adherence to the Treaty can achieve this goal, and it urges all four States not parties to the Treaty, Cuba, India, Israel and Pakistan, to accede to it without delay and without conditions, and to bring into force the required comprehensive safeguards agreements, together with Additional Protocols consistent with the Model contained in INFCIRC/540 (Corrected).

5. The Conference reaffirms the fundamental importance of full compliance with the provisions of the Treaty and the relevant safeguards agreements.

6. The Conference recognizes that IAEA safeguards are a fundamental pillar of the nuclear non-proliferation regime, play an indispensable role in the implementation of the Treaty and help to create an environment conducive to nuclear disarmament and to nuclear cooperation.

7. The Conference reaffirms that IAEA is the competent authority responsible for verifying and assuring, in accordance with the statute of IAEA and the IAEA safeguards system, compliance with its safeguards agreements with States parties undertaken in fulfilment of their obligations under article III, paragraph 1, of the Treaty, with a view to preventing diversion of nuclear energy from peaceful uses to nuclear weapons or other nuclear explosive devices. It is the conviction of the Conference that nothing should be done to undermine the authority of IAEA in this regard. States parties that have concerns regarding non-compliance with the safeguards agreements of the Treaty by the States parties should direct such concerns, along with supporting evidence and information, to IAEA to consider, investigate, draw conclusions and decide on necessary actions in accordance with its mandate.

8. The Conference emphasizes that measures should be taken to ensure that the rights of all States parties under the provisions of the preamble and the articles of the Treaty are fully protected and that no State party is limited in the exercise of these rights in accordance with the Treaty.

9. The Conference emphasizes the importance of access to the Security Council and the General Assembly by IAEA, including its Director General, in

accordance with article XII.C. of the statute of IAEA and paragraph 19 of INFCIRC/153 (Corrected), and the role of the Security Council and the General Assembly, in accordance with the Charter of the United Nations, in upholding compliance with IAEA safeguards agreements and ensuring compliance with safeguards obligations by taking appropriate measures in the case of any violations notified to it by IAEA.

10. The Conference considers that IAEA safeguards provide assurance that States are complying with their undertakings under relevant safeguards agreements and assist States in demonstrating this compliance.

11. The Conference stresses that the non-proliferation and safeguards commitments in the Treaty are also essential for peaceful nuclear commerce and cooperation and that IAEA safeguards make a vital contribution to the environment for peaceful nuclear development and international cooperation in the peaceful uses of nuclear energy.

12. The Conference stresses that comprehensive safeguards and additional protocols should be universally applied once the complete elimination of nuclear weapons has been achieved. In the meantime, the Conference calls for the wider application of safeguards to peaceful nuclear facilities in the nuclear-weapon States under the relevant voluntary-offer safeguards agreements in the most economic and practical way possible, taking into account the availability of IAEA resources.

13. The Conference reiterates the call by previous Conferences of the States parties for the application of IAEA safeguards to all source or special fissionable material in all peaceful nuclear activities in the States parties in accordance with the provisions of article III of the Treaty. The Conference notes with satisfaction that, since 1995, 28 States have concluded safeguards agreements with IAEA in compliance with article III, paragraph 4, of the Treaty, 25 of which have brought the agreements into force.¹

14. The Conference notes with concern that IAEA continues to be unable to verify the correctness and completeness of the initial declaration of nuclear material made by the Democratic People's Republic of Korea, and is therefore unable to conclude that there has been no diversion of nuclear material in that country.

15. The Conference looks forward to the fulfilment by the Democratic People's Republic of Korea of its stated intention to come into full compliance with its Treaty safeguards agreement with IAEA, which remains binding and in force. The Conference emphasizes the importance of the Democratic People's Republic of Korea preserving and making available to IAEA all information needed to verify its initial declaration.

16. The Conference reaffirms that IAEA safeguards should be assessed and evaluated regularly. Decisions adopted by the IAEA Board of Governors aimed at further strengthening the effectiveness and improving the efficiency of IAEA safeguards should be supported and implemented.

17. The Conference reaffirms that the implementation of comprehensive safeguards agreements pursuant to article III, paragraph 1, of the Treaty should be designed to provide for verification by IAEA of the correctness and completeness of a State's declaration so that there is a credible assurance of the non-diversion of nuclear material from declared activities and of the absence of undeclared nuclear material and activities.

18. The Conference notes the measures endorsed by the IAEA Board of Governors in June 1995 for strengthening and making more efficient the safeguards system, and notes also that these measures are being implemented pursuant to the existing legal authority conferred upon IAEA by comprehensive safeguards agreements.

19. The Conference also fully endorses the measures contained in the Model Protocol Additional to the Agreement(s) between State(s) and the International Atomic Energy Agency for the Application of Safeguards (INFCIRC/540(Corrected)), which was approved by the IAEA Board of Governors in May 1997. The safeguards-strengthening measures contained in the Model Additional Protocol will provide IAEA with, *inter alia*, enhanced information about a State's nuclear activities and complementary access to locations within a State.

20. The Conference recognizes that comprehensive safeguards agreements based on document INFCIRC/153 have been successful in their main focus of providing assurance regarding declared nuclear material and have also provided a limited level of assurance regarding the absence of undeclared nuclear

material and activities. The Conference notes that implementation of the measures specified in the Model Additional Protocol will provide, in an effective and efficient manner, increased confidence about the absence of undeclared nuclear material and activities in a State as a whole and that those measures are now being introduced as an integral part of IAEA's safeguards system. The Conference notes, in particular, the relationship between the additional protocol and the safeguards agreement between IAEA and a State party as set out in article 1 of the Model Additional Protocol. In this regard, it recalls the interpretation provided by the IAEA secretariat on 31 January 1997 and set out in document GOV/2914 of 10 April 1997 that, once concluded, the two agreements had to be read and interpreted as one agreement.

21. The Conference notes the high priority that IAEA attaches, in the context of furthering the development of the strengthened safeguards system, to integrating traditional nuclear-material verification activities with the new strengthening measures and looks forward to an expeditious conclusion of this work. It recognizes that the aim of these efforts is to optimize the combination of all safeguards measures available to IAEA in order to meet the Agency's safeguards objectives with maximum effectiveness and efficiency within available resources. Furthermore, the Conference notes that credible assurance of the absence of undeclared nuclear material and activities, notably those related to enrichment and reprocessing, in a State as a whole could permit a corresponding reduction in the level of traditional verification efforts with respect to declared nuclear material in that State, which is less sensitive from the point of view of non-proliferation. The Conference notes the important work being undertaken by IAEA in the conceptualization and development of integrated safeguards approaches, and encourages continuing work by IAEA in further developing and implementing these approaches on a high-priority basis.

22. The Conference recognizes that measures to strengthen the effectiveness and improve the efficiency of the safeguards system with a view to providing credible assurance of the non-diversion of nuclear material from declared activities and of the absence of undeclared nuclear material and activities must be implemented by all States parties to the Non-Proliferation Treaty, including the nuclear-weapon States. The Conference also recognizes that the

interests of nuclear non-proliferation will be effectively served by the acceptance of IAEA safeguards strengthening measures by States with item-specific safeguards agreements. The Conference welcomes the additional protocol concluded by Cuba and urges it also to bring the protocol into force as soon as possible.

23. The Conference notes that bilateral and regional safeguards play a key role in the promotion of transparency and mutual confidence between neighbouring States, and that they also provide assurances concerning nuclear non-proliferation. The Conference considers that bilateral or regional safeguards could be useful in regions interested in building confidence among their member States and in contributing effectively to the non-proliferation regime.

24. The Conference stresses the need to respect the letter and the spirit of the Treaty with respect to technical cooperation with States not party to the Treaty.

25. The Conference recognizes that nuclear material supplied to the nuclear-weapon States for peaceful purposes should not be diverted for the production of nuclear weapons or other nuclear explosive devices, and should be, as appropriate, subject to IAEA safeguards agreements.

26. The Conference notes that all nuclear-weapon States have now concluded additional protocols to their voluntary-offer safeguards agreements incorporating those measures provided for in the Model Additional Protocol that each nuclear-weapon State has identified as capable of contributing to the non-proliferation and efficiency aims of the Protocol, when implemented with regard to that State, and as consistent with that State's obligations under article I of the Treaty. The Conference invites such States to keep the scope of those additional protocols under review.

27. The Conference commends IAEA for making its experience in the verification of nuclear non-proliferation available to the Conference on Disarmament in connection with the negotiation of a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices.

28. The Conference takes note of the Declaration of the Moscow Nuclear Safety and Security Summit of April 1996, including in relation to the safe and

effective management of weapons fissile material designated as no longer required for defence purposes, and the initiatives stemming from it.

29. The Conference underlines the importance of international verification of nuclear material designated by each nuclear-weapon State as no longer required for military purposes that has been irreversibly transferred to peaceful purposes. The Conference supports recent unilateral offers and mutual initiatives to place excess material under appropriate IAEA verification arrangements. Nuclear materials designated by each of the nuclear-weapon States as no longer required for military purposes should as soon as practicable be placed under IAEA or other relevant verification.

30. The Conference notes the considerable increase in the Agency's safeguards responsibilities since 1995. It further notes the financial constraints under which the IAEA safeguards system is functioning and calls upon all States parties, noting their common but differentiated responsibilities, to continue their political, technical and financial support of IAEA in order to ensure that the Agency is able to meet its safeguards responsibilities.

31. The Conference welcomes the significant contributions by States parties through their support programmes to the development of technology and techniques that facilitate and assist the application of safeguards.

32. The Conference considers that the strengthening of IAEA safeguards should not adversely affect the resources available for technical assistance and cooperation. The allocation of resources should take into account all of the Agency's statutory functions, including that of encouraging and assisting the development and practical application of atomic energy for peaceful uses with adequate technology transfer.

33. The Conference recognizes that the transfer of nuclear-related equipment, information, material and facilities, resources or devices should be consistent with States' obligations under the Treaty.

34. The Conference, recalling the obligations of all States parties under articles I, II and III of the Treaty, calls upon all States parties not to cooperate or give assistance in the nuclear or nuclear-related field to States not party to the Treaty in a manner which assists them in manufacturing nuclear weapons or other nuclear explosive devices.

35. The Conference reaffirms that each State party to the Treaty has undertaken not to provide source or special fissionable material or equipment or material especially designed or prepared for the processing, use or production of special fissionable material, to any non-nuclear-weapon State for peaceful purposes, unless the source or special fissionable material shall be subject to the safeguards required by article III of the Treaty.

36. The Conference reaffirms paragraph 12 of decision 2 (Principles and objectives for nuclear non-proliferation and disarmament), adopted on 11 May 1995 by the Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons.

37. The Conference recognizes that there are nuclear-related dual-use items of equipment, technology and materials not identified in article III, paragraph 2, of the Treaty that are relevant to the proliferation of nuclear weapons and therefore to the Treaty as a whole. The Conference calls upon all States parties to ensure that their exports of nuclear-related dual-use items to States not party to the Treaty do not assist any nuclear-weapons programme. The Conference reiterates that each State party should also ensure that any transfer of such items is in full conformity with the Treaty.

38. The Conference recognizes the particular requirement for safeguards on unirradiated direct-use nuclear material, and notes the projections by IAEA that the use of separated plutonium for peaceful purposes is expected to increase over the next several years. The Conference recognizes the non-proliferation benefits of the conversion of civilian research reactors to low-enriched uranium fuel. The Conference notes with appreciation that many research reactors are discontinuing the use of highly enriched uranium fuel in favour of low-enriched uranium fuel as a result of the Reduced Enrichment for Research and Test Reactors Programme. The Conference expresses satisfaction at the considerable work undertaken to ensure the continuing effectiveness of IAEA safeguards in relation to reprocessing, to the storage of separated plutonium and to uranium enrichment.

39. The Conference welcomes the additional transparency on matters pertaining to the management of plutonium resulting from the establishment, in 1997, of Guidelines for the Management of Plutonium (see INFCIRC/549), setting out the policies that several

States, including the nuclear-weapon States, have decided to adopt.

40. The Conference welcomes the announcement made by some nuclear-weapon States that they have ceased the production of fissile material for use in nuclear weapons or other nuclear explosive devices.

41. The Conference notes the conclusion drawn by the Board of Governors of IAEA that the proliferation risk with regard to neptunium is considerably lower than that with regard to uranium or plutonium and that at present there is practically no proliferation risk with regard to americium. The Conference expresses satisfaction at the recent decisions of the IAEA Board of Governors, which enabled IAEA to enter into exchanges of letters with States, on a voluntary basis, to ensure the regular and timely receipt of information as well as the application of measures required for efficient implementation of certain monitoring tasks regarding the production and transfer of separated neptunium, and which requested the Director General of IAEA to report to the Board when appropriate with respect to the availability of separated americium, using relevant information available through the conduct of regular IAEA activities and any additional information provided by States on a voluntary basis.

42. The Conference notes the paramount importance of effective physical protection of all nuclear material, and calls upon all States to maintain the highest possible standards of security and physical protection of nuclear materials. The Conference notes the need for strengthened international cooperation in physical protection. In this regard, the Conference notes that 63 States have become party to the Convention on the Physical Protection of Nuclear Material.

43. Expressing concern about the illicit trafficking of nuclear and other radioactive materials, the Conference urges all States to introduce and enforce appropriate measures and legislation to protect and ensure the security of such material. The Conference welcomes the activities in the fields of prevention, detection and response being undertaken by IAEA in support of efforts against illicit trafficking. The Conference acknowledges the Agency's efforts to assist member States in strengthening their regulatory control on the applications of radioactive materials, including its ongoing work on a registry of sealed sources. It also welcomes the Agency's activities undertaken to provide for the enhanced exchange of information

among its member States, including the continued maintenance of the illicit trafficking database. The Conference recognizes the importance of enhancing cooperation and coordination among States and among international organizations in preventing, detecting and responding to the illegal use of nuclear and other radioactive material.

44. The Conference notes that 51 States parties to the Treaty have yet to bring into force comprehensive safeguards agreements,² and urges them to do so as soon as possible. This includes States parties without substantial nuclear activities. The Conference notes that in the case of States without substantial nuclear activities, the conclusion of safeguards agreements involves simplified procedures. The Conference recommends that the Director General of IAEA continue his efforts to further facilitate and assist these States parties in the conclusion and the entry into force of such agreements.

45. The Conference welcomes the fact that since May 1997, the IAEA Board of Governors has approved additional protocols to comprehensive safeguards agreements with 43 States and that 12 of those additional protocols are currently being implemented. The Conference encourages all States parties, in particular those States parties with substantial nuclear programmes, to conclude additional protocols as soon as possible and to bring them into force or provisionally apply them as soon as possible.

46. The Conference urges IAEA to continue implementing strengthened safeguards measures as broadly as possible, and further urges all States with safeguards agreements to cooperate fully with IAEA in the implementation of these measures.

47. The Conference recommends that the Director General of IAEA and the IAEA member States consider ways and means, which could include a possible plan of action, to promote and facilitate the conclusion and entry into force of such safeguards agreements and additional protocols, including, for example, specific measures to assist States with less experience in nuclear activities to implement legal requirements.

48. The Conference calls upon all States parties to give their full and continuing support to the IAEA safeguards system.

49. The Conference notes the agreement between the Russian Federation and the United States of America to convert in the Russian Federation 500 tonnes of highly enriched uranium (HEU) from the Russian Federation's nuclear weapons to low enriched uranium for use in commercial reactors. It welcomes the conversion to date of over 80 tonnes of HEU in the framework of this agreement. The Conference also recognizes the affirmation by the President of the Russian Federation and the President of the United States of America of the intention of each country to remove by stages approximately 50 tonnes of plutonium from their nuclear weapons programmes and to convert it so that it can never be used in nuclear weapons.

50. The Conference requests that IAEA continue to identify the financial and human resources needed to meet effectively and efficiently all of its responsibilities, including its safeguards verification responsibilities. It strongly urges all States to ensure that IAEA is provided with these resources.

51. The Conference recognizes that national rules and regulations of States parties are necessary to ensure that the States parties are able to give effect to their commitments with respect to the transfer of nuclear and nuclear-related dual-use items to all States taking into account articles I, II and III of the Treaty, and, for States parties, also fully respecting article IV. In this context, the Conference urges States parties that have not yet done so to establish and implement appropriate national rules and regulations.

52. The Conference recommends that the list of items triggering IAEA safeguards and the procedures for implementation, in accordance with article III, paragraph 2, be reviewed from time to time to take into account advances in technology, the proliferation sensitivity and changes in procurement practices.

53. The Conference requests that any supplier arrangement should be transparent and should continue to take appropriate measures to ensure that the export guidelines formulated by them do not hamper the development of nuclear energy for peaceful uses by States parties, in conformity with articles I, II, III, and IV of the Treaty.

54. The Conference recommends that transparency in export controls should continue to be promoted within a framework of dialogue and cooperation among all interested States parties to the Treaty.

55. The Conference encourages all other States that separate, hold, process or use separated plutonium in their civil nuclear activities to adopt policies similar to those which have been adopted by the participants in the Guidelines for the Management of Plutonium (see INFCIRC/549). Furthermore, the Conference encourages the States concerned to consider similar policies for the management of highly enriched uranium used for peaceful purposes.

56. The Conference urges all States that have not yet done so to adhere to the Convention on the Physical Protection of Nuclear Material on the earliest possible date and to apply, as appropriate, the recommendations on the physical protection of nuclear material and facilities contained in IAEA document INFCIRC/225/Rev.4(Corrected) and in other relevant guidelines. It welcomes the ongoing informal discussions among legal and technical experts, under the aegis of IAEA, to discuss whether there is a need to revise the Convention on the Physical Protection of Nuclear Material.

Article IV and sixth and seventh preambular paragraphs

Treaty on the Non-Proliferation of Nuclear Weapons and the peaceful uses of nuclear energy

1. The Conference affirms that the Treaty fosters the development of the peaceful uses of nuclear energy by providing a framework of confidence and cooperation within which those uses can take place.

2. The Conference reaffirms that nothing in the Treaty shall be interpreted as affecting the inalienable right of all the parties to the Treaty to develop research, production and use of nuclear energy for peaceful purposes without discrimination and in conformity with articles I, II and III of the Treaty. The Conference recognizes that this right constitutes one of the fundamental objectives of the Treaty. In this connection, the Conference confirms that each country's choices and decisions in the field of peaceful uses of nuclear energy should be respected without jeopardizing its policies or international cooperation agreements and arrangements for peaceful uses of nuclear energy and its fuel-cycle policies.

3. The Conference also reaffirms the undertaking by all parties to the Treaty to facilitate, and have the right

to participate in, the fullest possible exchange of equipment, material and scientific and technological information for the peaceful uses of nuclear energy among States parties to the Treaty. The Conference notes the contribution that such uses can make to progress in general and to helping to overcome the technological and economic disparities between developed and developing countries.

4. The Conference urges that in all activities designed to promote the peaceful uses of nuclear energy, preferential treatment be given to the non-nuclear-weapon States parties to the Treaty, taking the needs of developing countries, in particular, into account.

5. Referring to paragraphs 14 to 20 of the decision on Principles and Objectives of 1995, the Conference reasserts the need to continue to enhance the peaceful uses of nuclear energy by all States parties and cooperation among them.

6. The Conference underlines the role of IAEA in assisting developing countries in the peaceful use of nuclear energy through the development of effective programmes aimed at improving their scientific, technological, and regulatory capabilities. In this context, the Conference takes note of the medium-term strategy of IAEA.

7. The Conference affirms that every effort should be made to ensure that IAEA has the financial and human resources necessary to effectively meet its responsibilities as foreseen in article III.A of the statute of IAEA.

8. The Conference recognizes the importance of the concept of sustainable development as a guiding principle for the peaceful use of nuclear energy. The Conference endorses the role of IAEA in assisting member States, upon request, in formulating projects that meet the objective of protecting the global environment by applying sustainable development approaches. The Conference recommends that IAEA continue taking this objective into account when planning its future activities. It further notes that IAEA regularly reports to the General Assembly on progress made in these fields.

9. The Conference recognizes the importance of safety and non-proliferation features, as well as aspects related to radioactive waste management being addressed in nuclear power development as well as

other nuclear activities related to the nuclear fuel cycle at the technological level. The Conference recalls the role of IAEA in the assessment of prospective nuclear power technologies in this respect.

10. The Conference commends IAEA for its efforts to enhance the effectiveness and efficiency of the Agency's Technical Cooperation Programme and to ensure the continuing relevance of the programme to the changing circumstances and needs of recipient member States. In this context, the Conference welcomes the new strategy for technical cooperation, which seeks to promote socio-economic impact within its core competencies, by integrating its assistance into the national development programme of each country with a view to ensuring sustainability through expanding partnerships in development, model project standards and the use of country programme frameworks and thematic plans. The Conference recommends that IAEA continue taking this objective and the needs of developing countries, notably least developed countries, into account when planning its future activities.

11. The Conference acknowledges the need for the parties to the Treaty to discuss regularly and take specific steps towards the implementation of article IV of the Treaty.

Nuclear and radiation safety, safe transport of radioactive materials, radioactive waste and liability

Nuclear and radiation safety

1. The Conference affirms that the Treaty on the Non-Proliferation of Nuclear Weapons can help to ensure that international cooperation in nuclear and radiation safety will take place within an appropriate non-proliferation framework. The Conference acknowledges the primary responsibility of individual States for maintaining the safety of nuclear installations within their territories, or under their jurisdiction, and the crucial importance of an adequate national technical, human and regulatory infrastructure in nuclear safety, radiological protection and radioactive waste management.

2. The Conference notes that a demonstrated global record of safety is a key element for the peaceful uses of nuclear energy and that continuous efforts are required to ensure that the technical and human

requirements of safety are maintained at the optimal level. Although safety is a national responsibility, international cooperation on all safety-related matters is indispensable. The Conference encourages the efforts of IAEA in the promotion of safety in all its aspects, and encourages all States parties to take the appropriate national, regional and international steps to enhance and foster a safety culture. The Conference welcomes and underlines the intensification of national measures and international cooperation in order to strengthen nuclear safety, radiation protection, the safe transport of radioactive materials and radioactive waste management, including activities conducted in this area by IAEA. In this regard, the Conference recalls that special efforts should be made and sustained to increase the awareness in these fields, through appropriate training.

3. The Conference welcomes the activities of IAEA directed towards the strengthening of nuclear safety in operating power and research reactors. The Conference further endorses the work of IAEA in the organization of international peer review services, the support to the regulatory bodies and other relevant areas of the infrastructure of member States through the Technical Cooperation Programme, the safety standards advisory commission and committees in the preparation of internationally recognized safety standards, the emergency response unit and the continuing work on transport safety matters.

4. The Conference welcomes the entry into force of the Convention on Nuclear Safety, and encourages all States, in particular those operating, constructing or planning nuclear power reactors that have not yet taken the necessary steps to become party to the Convention, to do so. It would also welcome a voluntary application of the related provisions of the Convention to other relevant nuclear installations dedicated to the peaceful uses of nuclear energy. The Conference also expresses its satisfaction with the outcome of the first review meeting under the Convention on Nuclear Safety, and looks forward to the report from the next review meeting, in particular with respect to those areas where the first review meeting found that there was room for safety improvements.

5. The Conference encourages all States that have not yet done so to become parties to the Convention on Early Notification of a Nuclear Accident, the Convention on Assistance in the Case of a Nuclear

Accident or Radiological Emergency and the Convention on Physical Protection of Nuclear Material.

6. The Conference notes the bilateral and multilateral activities that have enhanced the capabilities of the international community to study, minimize and mitigate the consequences of the accident at the Chernobyl nuclear power plant in support of the actions taken by the Governments concerned.

7. The Conference considers that attacks or threats of attack on nuclear facilities devoted to peaceful purposes jeopardize nuclear safety, have dangerous political, economic and environmental implications and raise serious concerns regarding the application of international law on the use of force in such cases, which could warrant appropriate action in accordance with the provisions of the Charter of the United Nations.

8. The Conference notes the importance of openness, transparency and public information concerning the safety of nuclear facilities.

Safe transport of radioactive materials

9. The Conference endorses the IAEA regulations for the safe transport of radioactive materials and urges States to ensure that these standards are maintained. The Conference notes the decision in 1997 by the International Maritime Organization (IMO) to incorporate the Code for the Safe Carriage of Irradiated Nuclear Fuel, Plutonium and High-level Radioactive Wastes in Flasks on Board Ships (INF Code) into the International Convention for the Safety of Life at Sea.

10. The Conference underlines the importance of effective national and international regulations and standards for the protection of the States concerned from the risks of transportation of radioactive materials. The Conference affirms that it is in the interests of all States that any transportation of radioactive materials be conducted in compliance with the relevant international standards of nuclear safety and security and environmental protection, without prejudice to the freedoms, rights and obligations of navigation provided for in international law. The Conference takes note of the concerns of small island developing States and other coastal States with regard to the transportation of radioactive materials by sea.

11. Recalling resolution GC(43)/RES/11 of the General Conference of IAEA, adopted by consensus in 1999, the Conference invites States shipping radioactive materials to provide, as appropriate, assurances to concerned States, upon their request, that the national regulations of the shipping State take IAEA transport regulations into account and to provide them with relevant information relating to shipments of such materials. The information provided should in no case be contradictory to the measures of physical security and safety.

12. The Conference notes that States parties have been working bilaterally and through international organizations to improve cooperation and exchange of information among the States concerned. In this context, the Conference calls upon States parties to continue working bilaterally and through the relevant international organizations to examine and further improve measures and international regulations relevant to international maritime transportation of radioactive material and spent fuel.

Spent fuel and radioactive waste

13. The Conference notes that a major issue in the debate over the use of nuclear technologies is the safety of the management of spent fuel and of radioactive waste. The Conference notes the conclusion of the Joint Convention on the Safety of Spent Fuel Management and on the Safety of Radioactive Waste Management and encourages States that have not yet taken the necessary steps to become party to the Convention, to do so. The Conference expresses the hope that this Convention will enter into force at the earliest possible date. The Conference underlines the importance of managing fuel and radioactive waste that were excluded from this Convention because they are within military or defence programmes in accordance with the objectives stated in this Convention.

14. The Conference commends the efforts of IAEA in radioactive waste management, and calls upon the Agency, in view of the increasing importance of all aspects of radioactive waste management, to strengthen its efforts in this field as resources permit. The Conference recognizes the activities of IAEA in the search for new approaches on radioactive waste management solutions that are both safe and publicly acceptable. It endorses IAEA programmes to assist member States in spent fuel and radioactive waste

management through, *inter alia*, safety standards, peer reviews and Technical Cooperation activities.

15. The Conference also notes that the contracting parties to the Convention on the Prevention of Marine Pollution by Dumping of Wastes and Other Matter (London Convention) have urged all States that have not done so to accept the 1993 amendment of annex I to the London Convention, which prohibits contracting parties from dumping radioactive wastes or other radioactive matter at sea.

Liability

16. The Conference notes the adoption of the 1997 Protocol to Amend the 1963 Vienna Convention on Civil Liability for Nuclear Damage and the Convention on Supplementary Compensation for Nuclear Damage. The Conference also notes the existence of various national and international liability mechanisms. Furthermore, the Conference stresses the importance of having effective liability mechanisms in place.

Technical cooperation

1. The Conference reaffirms the undertaking of those parties to the Treaty in a position to do so to cooperate in contributing alone, or together with other States or international organizations, to the further development of the applications of nuclear energy for peaceful purposes, especially in the territories of non-nuclear-weapon States parties to the Treaty, with due consideration for the needs of the developing areas of the world.

2. The Conference recognizes the benefits of the peaceful applications of nuclear energy and nuclear techniques in the fields referred to in articles II and III of the statute of IAEA, and their contribution to achieving sustainable development in developing countries and for generally improving the well-being and the quality of life of the peoples of the world.

3. The Conference acknowledges the importance of the work of IAEA as the principal agent for technology transfer among the international organizations referred to in article IV, paragraph 2, of the Treaty, and affirms the importance of the Technical Cooperation activities of IAEA, as well as bilateral and other multilateral cooperation, in fulfilling the obligations set forth in article IV of the Treaty.

4. The Conference recognizes that voluntary resources provided to and received from States parties to the Treaty under the IAEA Technical Cooperation Fund represent the most important contribution to the implementation of the Agency's Technical Cooperation Programme, the major instrument for its cooperation with developing countries. The Conference expresses its appreciation to all IAEA member States party to the Treaty which respect their commitments to the Technical Cooperation Fund by pledging and paying in full their contributions.

5. The Conference notes, however, that there has been a growing gap between the approved target figures for the Technical Cooperation Fund and the actual payments.

6. The Conference stresses that every effort should be made to ensure that IAEA's financial and human resources necessary for Technical Cooperation activities are assured, predictable and sufficient to meet the objectives mandated in article IV, paragraph 2, of the Treaty and article II of the IAEA statute. The Conference notes IAEA General Conference resolutions GC(43)/RES/6 and GC(43)/RES/14, and urges States members of IAEA to make every effort to pay in full and on time their voluntary contributions to the Technical Cooperation Fund and reminds them of their obligation to pay their Assessed Programme Costs. It also encourages IAEA to continue to manage its Technical Cooperation activities in an effective and cost-efficient manner, and in accordance with article III.C of the IAEA statute.

7. The Conference notes the consultation among States members of IAEA on the target for the Technical Cooperation Fund for the coming years and encourages member States to reach agreement on the indicative planning figures (IPF).

8. The Conference notes that the special needs and priorities of the least developed countries parties to the Treaty should be taken into account in bilateral and multilateral nuclear technical assistance and cooperation programmes. The Conference recommends that IAEA continue, through its Technical Cooperation Programme, to give special attention to the needs and priorities of least developed countries.

9. The Conference recognizes that regional cooperative arrangements for the promotion of the peaceful use of nuclear energy can be an effective means of providing assistance and facilitating

technology transfer, complementing the Technical Cooperation activities of IAEA in individual countries. It notes the contributions of the African Regional Cooperative Agreement for Research, Development and Training Related to Nuclear Science and Technology (AFRA), the Regional Cooperative Agreement for the Advancement of Nuclear Science and Technology in Latin America and the Caribbean (ARCAL), the Regional Cooperative Agreement for Research, Development and Training Related to Nuclear Science and Technology for Asia and the Pacific (RCA), as well as the regional Technical Cooperation Programme in Central and Eastern Europe.

10. The Conference notes the significant level of bilateral cooperation between States parties in the peaceful uses of nuclear energy worldwide and welcomes the reports thereon. The Conference recognizes that it is the responsibility of States parties to create the conditions to enable this cooperation, in which commercial entities play an important role in a manner that conforms with the States parties' obligations under articles I and II of the Treaty. The Conference urges States in a position to do so to continue and where possible increase their cooperation in this field, particularly to developing countries and parties to the Treaty with economies in transition.

11. The Conference calls upon all States parties, in acting in pursuance of the objectives of the Treaty, to observe the legitimate right of all States parties, in particular developing States, to full access to nuclear material, equipment and technological information for peaceful purposes. Transfers of nuclear technology and international cooperation in conformity with articles I, II and III of the Treaty are to be encouraged. They would be facilitated by eliminating undue constraints that might impede such cooperation.

Conversion of nuclear materials to peaceful uses

1. The Conference notes steps taken by nuclear-weapon States to reduce their nuclear weapons arsenals and underlines the importance of international verification, as soon as practicable, of nuclear weapons material designated by each nuclear-weapon State as no longer required for military programmes and that has been irreversibly transferred to peaceful purposes. This process requires strict procedures for the safe handling, storage and disposal of sensitive nuclear

materials, as well as the safe management of radioactive contaminants in strict compliance with the highest possible standards of environmental protection and nuclear and radiation safety.

2. The Conference takes note of the Declaration of the Moscow Nuclear Safety and Security Summit of April 1996, including the measures in relation to the safe and effective management of weapons fissile material designated as no longer required for defence purposes, and the initiatives stemming therefrom.

3. The Conference also notes that there have been exceptional instances in which serious environmental consequences have resulted from uranium mining and associated nuclear fuel-cycle activities in the production of nuclear weapons.

4. The Conference calls upon all Governments and international organizations that have expertise in the field of cleanup and disposal of radioactive contaminants to consider giving appropriate assistance, as may be requested, for radiological assessment and remedial purposes in these affected areas, while noting the efforts that have been made to date in this regard.

Article V

The Conference affirms that the provisions of article V of the Treaty as regards the peaceful applications of any nuclear explosions are to be interpreted in the light of the Comprehensive Nuclear-Test-Ban Treaty.

Article VI and eighth to twelfth preambular paragraphs

1. The Conference notes the reaffirmation by the States parties of their commitment to article VI and the eighth to twelfth preambular paragraphs of the Treaty.

2. The Conference notes that, despite the achievements in bilateral and unilateral arms reduction, the total number of nuclear weapons deployed and in stockpile still amounts to many thousands. The Conference expresses its deep concern at the continued risk for humanity represented by the possibility that these nuclear weapons could be used.

3. The Conference takes note of the proposal made by the Secretary-General of the United Nations that the

convening of a major international conference that would help to identify ways of eliminating nuclear dangers be considered at the Millennium Summit.

4. The Conference reaffirms that the cessation of all nuclear-weapon-test explosions or any other nuclear explosions will contribute to the non-proliferation of nuclear weapons in all its aspects, to the process of nuclear disarmament leading to the complete elimination of nuclear weapons and, therefore, to the further enhancement of international peace and security.

5. The Conference welcomes the adoption by the General Assembly and subsequent opening for signature of the Comprehensive Nuclear-Test-Ban Treaty in New York on 24 September 1996, and notes that 155 States have signed it and that 56 of them, including 28 whose ratification is necessary for its entry into force, have deposited their instruments of ratification. The Conference welcomes the ratifications by France and the United Kingdom of Great Britain and Northern Ireland and the recent decision by the State Duma of the Russian Federation to ratify the Treaty. The Conference calls upon all States, in particular on those 16 States whose ratification is a prerequisite for the entry into force of the Comprehensive Nuclear-Test-Ban Treaty, to continue their efforts to ensure the early entry into force of the Treaty.

6. The Conference welcomes the final declaration adopted at the Conference on facilitating the entry into force of the Comprehensive Nuclear-Test-Ban Treaty, convened in Vienna in October 1999, in accordance with article XIV of the Treaty.

7. The Conference notes the International Court of Justice advisory opinion on the *Legality of the threat or use of nuclear weapons* issued at The Hague on 8 July 1996.

8. The Conference notes the establishment, in August 1998, by the Conference on Disarmament, of the Ad Hoc Committee under item 1 of its agenda entitled "Cessation of the nuclear arms race and nuclear disarmament" to negotiate, on the basis of the report of the Special Coordinator (CD/1299) and the mandate contained therein, a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices. The Conference regrets that negotiations have

not been pursued on this issue as recommended in paragraph 4 (b) of the 1995 decision on “Principles and Objectives for Nuclear Non-Proliferation and Disarmament”.

9. The Conference welcomes the significant progress achieved in nuclear weapons reductions made unilaterally or bilaterally under the Strategic Arms Reduction Treaty (START) process, as steps towards nuclear disarmament. Ratification of START II by the Russian Federation is an important step in the efforts to reduce strategic offensive weapons and is welcomed. Completion of ratification of START II by the United States remains a priority.

10. The Conference also welcomes the significant unilateral reduction measures taken by other nuclear-weapon States, including the close-down and dismantling of nuclear weapon-related facilities.

11. The Conference welcomes the efforts of several States to cooperate in making nuclear disarmament measures irreversible, in particular, through initiatives on the verification, management and disposition of fissile material declared excess to military purposes.

12. The Conference reiterates the important contribution made by Belarus, Kazakhstan and Ukraine to the implementation of article VI of the Treaty through their voluntary withdrawal of all tactical and strategic nuclear weapons from their territories.

13. The Conference welcomes the signing, in September 1997, by Belarus, Kazakhstan, the Russian Federation, Ukraine and the United States of America of significant agreements relating to the Treaty on the Limitation of Anti-Ballistic Missile Systems, including a Memorandum of Understanding. The Conference welcomes the ratification of these documents by the Russian Federation. Ratification of these documents by the other countries remains a priority.

14. The Conference notes the nuclear-weapon States’ declaration that none of their nuclear weapons are targeted at any State.

15. The Conference agrees on the following practical steps for the systematic and progressive efforts to implement article VI of the Treaty on the Non-Proliferation of Nuclear Weapons and paragraphs 3 and 4 (c) of the 1995 Decision on “Principles and Objectives for Nuclear Non-Proliferation and Disarmament”:

1. The importance and urgency of signatures and ratifications, without delay and without conditions and in accordance with constitutional processes, to achieve the early entry into force of the Comprehensive Nuclear-Test-Ban Treaty.

2. A moratorium on nuclear-weapon-test explosions or any other nuclear explosions pending entry into force of that Treaty.

3. The necessity of negotiations in the Conference on Disarmament on a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices in accordance with the statement of the Special Coordinator in 1995 and the mandate contained therein, taking into consideration both nuclear disarmament and nuclear non-proliferation objectives. The Conference on Disarmament is urged to agree on a programme of work which includes the immediate commencement of negotiations on such a treaty with a view to their conclusion within five years.

4. The necessity of establishing in the Conference on Disarmament an appropriate subsidiary body with a mandate to deal with nuclear disarmament. The Conference on Disarmament is urged to agree on a programme of work which includes the immediate establishment of such a body.

5. The principle of irreversibility to apply to nuclear disarmament, nuclear and other related arms control and reduction measures.

6. An unequivocal undertaking by the nuclear-weapon States to accomplish the total elimination of their nuclear arsenals leading to nuclear disarmament, to which all States parties are committed under article VI.

7. The early entry into force and full implementation of START II and the conclusion of START III as soon as possible while preserving and strengthening the Treaty on the Limitation of Anti-Ballistic Missile Systems as a cornerstone of strategic stability and as a basis for further reductions of strategic offensive weapons, in accordance with its provisions.

8. The completion and implementation of the Trilateral Initiative between the United States of America, the Russian Federation and the International Atomic Energy Agency.

9. Steps by all the nuclear-weapon States leading to nuclear disarmament in a way that promotes international stability, and based on the principle of undiminished security for all:

- Further efforts by the nuclear-weapon States to reduce their nuclear arsenals unilaterally;
- Increased transparency by the nuclear-weapon States with regard to the nuclear weapons capabilities and the implementation of agreements pursuant to article VI and as a voluntary confidence-building measure to support further progress on nuclear disarmament;
- The further reduction of non-strategic nuclear weapons, based on unilateral initiatives and as an integral part of the nuclear arms reduction and disarmament process;
- Concrete agreed measures to further reduce the operational status of nuclear weapons systems;
- A diminishing role for nuclear weapons in security policies to minimize the risk that these weapons will ever be used and to facilitate the process of their total elimination;
- The engagement as soon as appropriate of all the nuclear-weapon States in the process leading to the total elimination of their nuclear weapons.

10. Arrangements by all nuclear-weapon States to place, as soon as practicable, fissile material designated by each of them as no longer required for military purposes under IAEA or other relevant international verification and arrangements for the disposition of such material for peaceful purposes, to ensure that such material remains permanently outside military programmes.

11. Reaffirmation that the ultimate objective of the efforts of States in the disarmament process is general and complete disarmament under effective international control.

12. Regular reports, within the framework of the strengthened review process for the Non-Proliferation Treaty, by all States parties on the implementation of article VI and paragraph 4 (c) of the 1995 Decision on “Principles and Objectives for Nuclear Non-Proliferation and Disarmament”, and recalling the advisory opinion of the International Court of Justice of 8 July 1996.

13. The further development of the verification capabilities that will be required to provide assurance of compliance with nuclear disarmament agreements for the achievement and maintenance of a nuclear-weapon-free world.

Article VII and the security of non-nuclear-weapon States

1. The Conference reaffirms that, in accordance with the Charter of the United Nations, States must refrain in their international relations from the threat or use of force against the territorial integrity or political independence of any State or in any other manner inconsistent with the purposes of the United Nations.

2. The Conference reaffirms that the total elimination of nuclear weapons is the only absolute guarantee against the use or threat of use of nuclear weapons. The Conference agrees that legally binding security assurances by the five nuclear-weapon States to the non-nuclear-weapon States parties to the Treaty on the Non-Proliferation of Nuclear Weapons strengthen the nuclear non-proliferation regime. The Conference calls upon the Preparatory Committee to make recommendations to the 2005 Review Conference on this issue.

3. The Conference notes the reaffirmation by the nuclear-weapon States of their commitment to the United Nations Security Council resolution 984 (1995) on security assurances for non-nuclear-weapon States parties to the Treaty on the Non-Proliferation of Nuclear Weapons.

4. The Conference notes the establishment in March 1998 by the Conference on Disarmament of the Ad Hoc Committee on effective international arrangements to assure non-nuclear-weapon States against the use, or threat of use, of nuclear weapons.

5. The Conference recognizes the important role which the establishment of new nuclear-weapon-free zones and the signature to the protocols of new and previously existing zones by the nuclear-weapon States has played in extending negative security assurances to non-nuclear-weapon States parties to the Treaty on the Non-Proliferation of Nuclear Weapons in the zones concerned. The Conference underlines the importance of concerned States taking steps to bring into effect the assurances provided by nuclear-weapon-free-zone treaties and their protocols.

6. The Conference welcomes and supports the steps taken to conclude further nuclear-weapon-free-zone treaties since 1995, and reaffirms the conviction that the establishment of internationally recognized nuclear-weapon-free zones on the basis of arrangements freely arrived at among the States of the region concerned enhances global and regional peace and security, strengthens the nuclear non-proliferation regime and contributes towards realizing the objectives of nuclear disarmament.

7. The Conference supports proposals for the establishment of nuclear-weapon-free zones where they do not yet exist, such as in the Middle East and South Asia.

8. The Conference welcomes and supports the declaration by Mongolia of its nuclear-weapon-free status, and takes note of the recent adoption by the Mongolian parliament of legislation defining that status as a unilateral measure to ensure the total absence of nuclear weapons on its territory, bearing in mind its unique conditions, as a concrete contribution to promoting the aims of nuclear non-proliferation and a practical contribution to promoting political stability and predictability in the region.

9. The Conference further welcomes the Joint Declaration on the Denuclearization of the Korean Peninsula between the Republic of Korea and the Democratic People's Republic of Korea and urges its rapid implementation.

10. The Conference recognizes the continuing contributions that the Antarctic Treaty and the treaties

of Tlatelolco, Rarotonga, Bangkok and Pelindaba are making towards the achievement of nuclear non-proliferation and disarmament objectives, particularly in the southern hemisphere and adjacent areas, and towards keeping the areas covered by those treaties free of nuclear weapons, in accordance with international law. In this context, the Conference welcomes the vigorous efforts being made among States parties and signatories to those treaties in order to promote their common objectives.

11. The Conference stresses the importance of the signature and ratification of the treaties of Tlatelolco, Rarotonga, Bangkok and Pelindaba by all regional States, as well as the signature and ratification by the nuclear-weapon States that have not yet done so of the relevant protocols to those treaties, recognizing that security assurances are available to States parties to those Treaties. In this context, the Conference takes note of the statement of the five nuclear-weapon States that the internal processes are under way to secure the few lacking ratifications to the treaties of Rarotonga and Pelindaba, and that consultations with the States parties to the Treaty of Bangkok have been accelerated, paving the way for adherence by the five nuclear-weapon States to the protocol to that Treaty.

12. The Conference welcomes the consensus reached in the General Assembly since its thirty-fifth session that the establishment of a nuclear-weapon-free zone in the Middle East would greatly enhance international peace and security. The Conference urges all parties directly concerned to consider seriously taking the practical and urgent steps required for the implementation of the proposal to establish a nuclear-weapon-free zone in the region of the Middle East in accordance with the relevant resolutions of the General Assembly, and as a means of promoting this objective, invites the countries concerned to adhere to the Treaty on the Non-Proliferation of Nuclear Weapons, and pending the establishment of the zone, to agree to place all their nuclear activities under IAEA safeguards.

13. The Conference further welcomes the report on the establishment of nuclear-weapon-free zones on the basis of arrangements freely arrived at among the States of the region concerned, adopted by consensus by the Disarmament Commission on 30 April 1999.

14. The Conference regards the establishment of additional nuclear-weapon-free zones as a matter of priority, and in this respect supports the intention and

commitment of the five Central Asian States to establish a nuclear-weapon-free zone in their region, welcomes the practical steps they have taken towards implementation of their initiative and notes with satisfaction the substantial progress they have made in drawing up and agreeing on a draft treaty on the establishment of a nuclear-weapon-free zone in Central Asia.

15. The Conference, taking note of all initiatives by States parties, believes that the international community should continue to promote the establishment of new nuclear-weapon-free zones in accordance with the relevant guidelines of the United Nations Disarmament Commission and in that spirit welcomes the efforts and proposals that have been advanced by the States parties since 1995 in various regions of the world.

16. Regional issues

The Middle East, particularly implementation of the 1995 Resolution on the Middle East:

1. The Conference reaffirms the importance of the Resolution on the Middle East adopted by the 1995 Review and Extension Conference and recognizes that the resolution remains valid until the goals and objectives are achieved. The Resolution, which was co-sponsored by the depositary States (Russian Federation, United Kingdom of Great Britain and Northern Ireland and United States of America), is an essential element of the outcome of the 1995 Conference and of the basis on which the Treaty on the Non-Proliferation of Nuclear Weapons was indefinitely extended without a vote in 1995.
2. The Conference reaffirms its endorsement of the aims and objectives of the Middle East peace process and recognizes that efforts in this regard, as well as other efforts, contribute to, *inter alia*, a Middle East zone free of nuclear weapons as well as other weapons of mass destruction.
3. The Conference recalls that in paragraph 4 of the 1995 Resolution on the Middle East the Conference “calls upon all States in the Middle East that have not yet done so, without exception, to accede to the Treaty

as soon as possible and to place their nuclear facilities under full-scope International Atomic Energy Agency safeguards”. The Conference notes, in this connection, that the report of the United Nations Secretariat on the implementation of the 1995 Resolution on the Middle East (NPT/CONF.2000/7) states that several States have acceded to the Treaty and that, with these accessions, all States of the region of the Middle East, with the exception of Israel, are States parties to the Treaty on the Non-Proliferation of Nuclear Weapons. The Conference welcomes the accession of these States and reaffirms the importance of Israel’s accession to the Non-Proliferation Treaty and the placement of all its nuclear facilities under comprehensive IAEA safeguards, in realizing the goal of universal adherence to the Treaty in the Middle East.

4. The Conference notes the requirement under article III of the Non-Proliferation Treaty for non-nuclear-weapon States parties to conclude agreements with IAEA to meet the requirements of the statute of IAEA. In this regard, the Conference notes from paragraph 44 of the review of article III that nine States parties in the region have yet to conclude comprehensive safeguards agreements with IAEA and invites those States to negotiate such agreements and bring them into force as soon as possible. The Conference welcomes the conclusion of an Additional Protocol by Jordan and invites all other States in the Middle East, whether or not party to the Treaty, to participate in IAEA’s strengthened safeguards system.
5. The Conference notes the unanimous adoption by the United Nations Disarmament Commission, at its 1999 session, of guidelines on the establishment of nuclear-weapon-free zones on the basis of arrangements freely arrived at among the States of the region concerned.³ The Conference notes that, at that session, the Disarmament Commission encouraged the establishment of a nuclear-weapon-free

zone in the Middle East, as well as the development of zones free from all weapons of mass destruction. The Conference notes the adoption without a vote by the General Assembly, for the twentieth consecutive year, of a resolution proposing the establishment of a nuclear-weapon-free zone in the region of the Middle East.

6. The Conference invites all States, especially States of the Middle East, to reaffirm or declare their support for the objective of establishing an effectively verifiable Middle East zone free of nuclear weapons as well as other weapons of mass destruction, to transmit their declarations of support to the Secretary-General of the United Nations and to take practical steps towards that objective.
7. The Conference requests all States parties, particularly the nuclear-weapon States, the States of the Middle East and other interested States, to report through the United Nations Secretariat to the President of the 2005 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, as well as to the Chairperson of the Preparatory Committee meetings to be held in advance of that Conference, on the steps that they have taken to promote the achievement of such a zone and the realization of the goals and objectives of the 1995 Resolution on the Middle East. It requests that the Secretariat prepare a compilation of those reports in preparation for consideration of these matters at the Preparatory Committee meetings and the 2005 Review Conference.
8. The Conference requests the President of the 2000 Review Conference to convey the Final Document of the Conference, including its conclusions and recommendations, to the Governments of all States, including those States parties unable to attend the Conference and to States that are not party to the Treaty.
9. Recalling paragraph 6 of the 1995 Resolution on the Middle East, the Conference reiterates the appeal to all States

parties to the Treaty on the Non-Proliferation of Nuclear Weapons to extend their cooperation and to exert their utmost efforts with a view to ensuring the early establishment by regional parties of a Middle East zone free of nuclear and all other weapons of mass destruction and their delivery systems. The Conference notes the statement by the five nuclear-weapon States reaffirming their commitment to the 1995 Resolution on the Middle East.

10. Bearing in mind the importance of full compliance with the Non-Proliferation Treaty, the Conference notes the statement of 24 April 2000 by the IAEA Director General that, since the cessation of IAEA inspections in Iraq on 16 December 1998, the Agency has not been in a position to provide any assurance of Iraq's compliance with its obligations under Security Council resolution 687 (1991). The Conference further notes that IAEA carried out an inspection in January 2000 pursuant to Iraq's safeguards agreement with IAEA during which the inspectors were able to verify the presence of the nuclear material subject to safeguards (low enriched, natural and depleted uranium). The Conference reaffirms the importance of Iraq's full continuous cooperation with IAEA and compliance with its obligations.

South Asia and other regional issues:

11. The Conference emphasizes that nuclear disarmament and nuclear non-proliferation are mutually reinforcing.
12. With respect to the nuclear explosions carried out by India and then by Pakistan in May 1998, the Conference recalls Security Council resolution 1172 (1998), adopted unanimously on 6 June 1998, and calls upon both States to take all of the measures set out therein. Notwithstanding their nuclear tests, India and Pakistan do not have the status of nuclear-weapon States.
13. The Conference urges India and Pakistan to accede to the Non-Proliferation Treaty as non-nuclear-weapon States and to place all

their nuclear facilities under comprehensive Agency safeguards. The Conference further urges both States to strengthen their non-proliferation export control measures over technologies, material and equipment that can be used for the production of nuclear weapons and their delivery systems.

14. The Conference notes that India and Pakistan have declared moratoriums on further testing and their willingness to enter into legal commitments not to conduct any further nuclear testing by signing and ratifying the Comprehensive Nuclear-Test-Ban Treaty. The Conference urges both States to sign the Treaty, in accordance with their pledges to do so.
15. The Conference notes the willingness expressed by India and Pakistan to participate in the negotiation in the Conference on Disarmament of a treaty banning the production of fissile material for nuclear weapons and other nuclear explosive devices. Pending the conclusion of a legal instrument, the Conference urges both countries to observe a moratorium on the production of such material. The Conference also urges both States to join other countries in actively seeking an early commencement of negotiations on this issue, in a positive spirit and on the basis of the agreed mandate, with a view to reaching early agreement.
16. The Conference notes with concern that, while the Democratic People's Republic of Korea remains a party to the Non-Proliferation Treaty, IAEA continues to be unable to verify the correctness and completeness of the initial declaration of nuclear material made by the Democratic People's Republic of Korea and is therefore unable to conclude that there has been no diversion of nuclear material in the Democratic People's Republic of Korea. The Conference looks forward to the fulfilment by the Democratic People's Republic of Korea of its stated intention to come into full compliance with its safeguards agreement with IAEA, which remains binding and in force. The

Conference emphasizes the importance of action by the Democratic People's Republic of Korea to preserve and make available to IAEA all information needed to verify its initial inventory.

Article IX

1. The Conference reaffirms its conviction that the preservation of the integrity of the Treaty and its strict implementation are essential to international peace and security.
2. The Conference recognizes the crucial role of the Treaty in nuclear non-proliferation, nuclear disarmament and the peaceful uses of nuclear energy.
3. The Conference reaffirms that in accordance with article IX, States not currently States parties may accede to the Treaty only as non-nuclear-weapon States.
4. The Conference undertakes to make determined efforts towards the achievement of the goal of universality of the Treaty. These efforts should include the enhancement of regional security, particularly in areas of tension such as the Middle East and South Asia.
5. The Conference reaffirms the long-held commitment of parties to the Treaty to universal membership and notes that this goal has been advanced by the accession to the Treaty of several new States since the 1995 Review and Extension Conference, thereby bringing its membership to 187 States parties. The Conference reaffirms the importance of the Treaty in establishing a norm of international behaviour in the nuclear field.
6. The Conference therefore calls upon those remaining States not party to the Treaty to accede to it, thereby accepting an international legally binding commitment not to acquire nuclear weapons or nuclear explosive devices and to accept IAEA safeguards on all their nuclear activities. These States are Cuba, India, Israel and Pakistan. In this context, the Conference welcomes the signature by Cuba of the protocol additional to its safeguards agreements with IAEA.
7. The Conference particularly urges those non-parties to the Treaty that operate unsafeguarded nuclear facilities — India, Israel and Pakistan — to take similar action, and affirms the important

contribution this would make to regional and global security.

8. The Conference also takes note that the widening of the entry into force of protocols additional to safeguards agreements with IAEA will strengthen the nuclear safeguards regime and facilitate the exchange of nuclear and nuclear-related material in peaceful nuclear cooperation.

9. In this connection, the Conference underlines the necessity of universal adherence to the Treaty and of strict compliance by all existing parties with their obligations under the Treaty.

10. The Conference requests the President of the Conference to convey formally the views of States parties on this issue to all non-parties and to report their responses to the parties. Such efforts should contribute to enhancing the universality of the Treaty and the adherence of non-parties to it.

Improving the effectiveness of the strengthened review process for the Treaty

1. The States parties reaffirmed the provisions in the Decision on “Strengthening the Review Process for the Treaty” adopted at the 1995 Review and Extension Conference.

2. The States parties stressed that three sessions of the Preparatory Committee, normally for a duration of 10 working days each, should be held in the years prior to the Review Conference. A fourth session, would, if necessary, be held in the year of the Review Conference.

3. The States parties recommended that specific time be allocated at sessions of the Preparatory Committee to address specific relevant issues.

4. Recalling the Decision on subsidiary bodies of the 2000 Review Conference (NPT/CONF.2000/DEC.1), subsidiary bodies can be established at the Review Conference to address specific relevant issues.

5. The States parties, recalling paragraph 4 of Decision 1 of the 1995 NPT Review and Extension Conference, agreed that the purpose of the first two sessions of the Preparatory Committee would be to “consider principles, objectives and ways in order to

promote the full implementation of the Treaty, as well as its universality”. To this end, each session of the Preparatory Committee should consider specific matters of substance relating to the implementation of the Treaty and Decisions 1 and 2, as well as the Resolution on the Middle East adopted in 1995, and the outcomes of subsequent Review Conferences, including developments affecting the operation and purpose of the Treaty.

6. The States parties also agreed that the Chairpersons of the sessions of the Preparatory Committee should carry out consultations with the States parties to prepare the ground for the outcome of the sessions as well as their agenda.

7. The consideration of the issues at each session of the Preparatory Committee should be factually summarized and its results transmitted in a report to the next session for further discussion. At its third and, as appropriate, fourth sessions, the Preparatory Committee, taking into account the deliberations and results of its previous sessions, should make every effort to produce a consensus report containing recommendations to the Review Conference.

8. The States parties agreed that the procedural arrangements for the Review Conference should be finalized at the last session of the Preparatory Committee.

9. The States parties also agreed that a meeting should be allocated to non-governmental organizations to address each session of the Preparatory Committee and the Review Conference.
